

Temporary Closure of Argae, Molverley, Affecting Shropshire Way Main Route – Alternative Route

A section of the Shropshire Way Main Route running along the Argae, Molverley, has been closed on the grounds of public safety whilst work is undertaken by the Environment Agency to reconstruct a flood defence bank. The map shows an alternative route for those following the Shropshire Way. Please note a short section of permitted access by the Landowner in order to avoid the collapsed bridge on the definitive line.
